

Product

Super Twin Lift

Super Twin Lift는 대형트럭이나 버스의 점검, 정비를 신속하고 효율적이며 안전하게 수행할 수 있도록 하여 정비에 소요되는 시간을 대폭 줄일 수 있으며 작업자의 안전을 배려하고 작업환경을 개선할 수 있습니다.

Super Twin Lift can reduce the required time for the maintenance because large truck or bus would be inspected quickly and the maintenance would be done efficiently and safely. Also, it can contribute to the worker's safety and the environment improvement.

Specifications

Model		KTL-1212	KTL-2020
Capacity		12 ton + 12 ton	20 ton + 20 ton
Stroke		1,300 mm	1,300 mm
Motor	Hydraulic	2.2 kw X 2	3.2 kw X 2
	Moving	0.4 kw	0.7 kw
Moving Distance of Four-cornered Post		5,000 mm	5,000 mm
Intervals of Four-cornered Post		3,000~8,000 mm	3,000~8,000 mm
Lift Operation		Wired Remote Control	Wired Remote Control
